

Clean water

Industrial use

PERFORMANCE RANGE

- Flow rate up to **45 l/min** (2.7 m³/h)
- Head up to **105 m**

INSTALLATION AND USE

Designed to transfer clean water free from abrasive particles and liquids that will not damage the pump's components.

The construction features of these compact brass pumps ensure protection against rust and oxidation and are suited for various industrial applications, such as **cooling and air conditioning**.

ELECTRIC MOTOR

Equipped with cutting-edge electric motors, the three-phase pumps are designed to work with inverters, offering stable and noiseless performance.

They feature efficiency class **IE3** for three-phase motors and **IE2** for single-phase motors, bolstered by class F insulation and IPX4 protection.

APPLICATION LIMITS

- Manometric suction head up to **8 m**
- Liquid temperature between **-10 °C** and **+90 °C**
- Ambient temperature between **-10 °C** and **+50 °C**
- Maximum working pressure **10 bar**

AVAILABLE UPON REQUEST

- ✘ Mechanical seal options available
- ✘ Protection rating IP X5 for PV70-90
- ✘ Different voltage requirements 60 Hz frequency
- ✘ **The pump body can be rotated**
